Diagram

This diagram will cover the graphical classes, excluding the logic and custom Swing ones

Link:

https://drive.google.com/file/d/1v27uYU_YcDRfCXilEg9QyS2A00Kdnyim/view?usp=sharing

Technical Section

We did create two projects:

- **CSGui:**

It includes the cutom classes of swing

Link:

<https://github.com/AhYaSki/CSGui>

- **UNO_LGC:**

**It includes the logic and graphic classes,
with control handling between them**

Link:

https://github.com/AhYaSki/UNO_LGC

Note

**We added comments to the code,
debugged it using AI, everything is
included in the repositories along with
README files.**

Credits

Logic Error fixed:

- Sari Bey Ouweis Wail
- Khodjabache Abd elMouhaimen

Custom Swing Classes:

- Sari Bey Ouweis Wail
- Alliche Youcef
- Benayache Ahmed Yassine

Component Design:

- Benayache Ahmed Yassine

Interface & Logic:

- Sari Bey Ouweis Wail
- Alliche Youcef

GitHub Setup & Customization:

- **Benayache Ahmed Yassine**

Game Flow Video:

Recourses

- **Sources of Knowledge:**

YouTube, Documentation webs, AI

- **Coding:**

Eclips, IntelliJ IDEA, NetBeans

- **Component Design:**

Photoshop, Figma

- **Code Hosting & Version Control:**

Git, GitHub

- **Report:**

Canva

THANK YOU
